## General Education

The Division of General Education aims to develop engineers with broad, creative and global perspectives. Our objectives are as follows:

- ① To help students acquire comprehensive knowledge and skills through the study of liberal arts, social science, health and PE that will compliment their character as competent engineers.
- ② To emphasize experimentation and practice in the study of natural science in order to cultivate their creativity and practical skills based on theory and practice.
- ③ To improve Japanese and English communicative competences to grow into engineers who can work internationally.
- ④ To continue to cultivate their motivation toward the study of specialized subjects as they advance through each grade.
